

Printing date 02.01.2024 Version: 9 (replaces version 8) Revision: 26.06.2023

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

· 1.1 Product identifier

PEROXAN A-50 M · Trade name:

1.2 Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

· Application of the substance /

the mixture

Reaction initiator For industrial use

· 1.3 Details of the supplier of the safety data sheet

· Manufacturer/Supplier: PERGAN GmbH

Hilfsstoffe für industrielle Prozesse

Schlavenhorst 71 D-46395 Bocholt Tel: +49 2871 9902-0 Fax: +49 2871 9902-50

· Further information obtainable

Qualified person: E-mail: msds@pergan.com

1.4 Emergency telephone

number: - Tel: +49 2871 9902-0

#### **SECTION 2: Hazards identification**

· 2.1 Classification of the substance or mixture

· Classification according to Regulation (EC) No 1272/2008

H242 Heating may cause a fire. Org. Perox. D

Acute Tox. 3 H331 Toxic if inhaled.

Skin Corr. 1C H314 Causes severe skin burns and eye damage.

Eve Dam. 1 H318 Causes serious eye damage. Skin Sens. 1 H317 May cause an allergic skin reaction. Muta. 2 H341 Suspected of causing genetic defects. Carc. 2 H351 Suspected of causing cancer. STOT SE 3 H335 May cause respiratory irritation.

Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects.

2.2 Label elements

· Labelling according to

Regulation (EC) No 1272/2008 The product is classified and labelled according to the GB CLP regulation.

· Hazard pictograms

· Signal word Danger

· Hazard-determining

· Hazard statements

components of labelling:

tert-butyl hydroperoxide

2,4-Pentadione, peroxide hydrogen peroxide solution H242 Heating may cause a fire.

H331 Toxic if inhaled.

H314 Causes severe skin burns and eye damage. H317 May cause an allergic skin reaction. H341 Suspected of causing genetic defects. H351 Suspected of causing cancer. H335 May cause respiratory irritation.

H412 Harmful to aquatic life with long lasting effects.

· Precautionary statements P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No

smoking.

Keep only in original packaging. P234 P264 Wash thoroughly after handling. P273 Avoid release to the environment.

Wear protective gloves/protective clothing/eye protection/face protection. P280

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with

water

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

P310 P405 Store locked up.

P410 Protect from sunlight.

P411+P235 Store at temperatures not exceeding +25°C. Keep cool.

(Contd. on page 2)

(Contd. of page 1)

Printing date 02.01.2024 Version: 9 (replaces version 8) Revision: 26.06.2023

Trade name: PEROXAN A-50 M

P420 Store separately.

P501 Dispose of contents/container in accordance with local/regional/national/international

regulations.

2.3 Other hazards

· Results of PBT and vPvB assessment

· PBT: The substances in the mixture do not meet the PBT/vPvB criteria according to UK REACH, annex XIII. · vPvB· The substances in the mixture do not meet the PBT/vPvB criteria according to UK REACH, annex XIII.

#### **SECTION 3: Composition/information on ingredients**

Additional information:

tert-butyl hydroperoxide 70%ig in water

For the wording of the listed hazard phrases refer to section 16.

#### **SECTION 4: First aid measures**

4.1 Description of first aid measures

General information: Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48

hours after the accident.

Take care of personal protection for the first aider.

After inhalation: Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

Take affected persons into fresh air and keep quiet.

· After skin contact: Immediately wash with water and soap and rinse thoroughly.

Immediately remove contaminated clothing.

Rinse opened eye for several minutes under running water. Then consult a doctor. · After eye contact: If symptoms persist consult doctor.

After swallowing:

4.2 Most important symptoms and effects, both acute and delayed

No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

GB

Printing date 02.01.2024 Version: 9 (replaces version 8) Revision: 26.06.2023

Trade name: PEROXAN A-50 M

(Contd. of page 2)

#### **SECTION 5: Firefighting measures**

· 5.1 Extinguishing media

• Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

5.2 Special hazards arising from

the substance or mixture

Under certain fire conditions, traces of other toxic gases cannot be excluded.

Hydrocarbons, carbondioxide and -monoxid.

5.3 Advice for firefighters

· Protective equipment:

Mouth respiratory protective device.

Do not inhale explosion gases or combustion gases. Cool endangered receptacles with water spray.

· Additional information Self-protection first!

#### **SECTION 6: Accidental release measures**

 6.1 Personal precautions, protective equipment and emergency procedures

Keep away from ignition sources.

In case of further temperature should be cooled with waterspray from a safe distance.

Wear breathing apparatus with filter A during decomposition of materials.

Wear protective equipment. Keep unprotected persons away.

· 6.2 Environmental precautions:

Inform respective authorities in case of seepage into water course or sewage system.

Do not allow to enter sewers/ surface or ground water.

· 6.3 Methods and material for containment and cleaning up:

Dispose contaminated material as waste according to section 13.

Ensure adequate ventilation

Large quantities should be diluted with suitable desensitation agent to a concentration below 10 % before

disposal.

Soak up with absorbant material (e. g. Vermiculit) and dispose of in accordance with government

regulations.

· 6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

In case of large spillage the environmental authority should be informed.

#### **SECTION 7: Handling and storage**

· 7.1 Precautions for safe

handling

Keep away from heat and direct sunlight.

Ensure good ventilation/exhaustion at the workplace.

Open and handle receptacle with care.

Prevent formation of aerosols

Wear suitable respiratory protective device when decanting larger quantities without extractor facilities.

Do not refill residue into storage receptacles. Restrict the quantity stored at the work place.

Use only in well ventilated areas.

Before break and at the end of work hands should be thoroughly washed. Only use tools made of suitable materials (e. g. polyethylene or stainless steel).

Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy-

metal compounds and amines). Avoid contact with skin and eyes. While using do not eat, drink or smoke.

Avoid shock and friction

Do not smoke.

Information about fire - and explosion protection:

Protect from heat

Protect against electrostatic charges.

Prevent impact and friction.

Fumes can combine with air to form an explosive mixture.

Wear shoes with conductive soles.

Avoid open flames, sparks, direct sunlight and other sources of ignition.

Printing date 02.01.2024 Version: 9 (replaces version 8) Revision: 26.06.2023

Trade name: PEROXAN A-50 M

(Contd. of page 3)

· 7.2 Conditions for safe storage, including any incompatibilities

· Storage: · Requirements to be met by Pay attention to the special requirements of your local autorithies for storing dangerous goods.

Requirements to be met by storerooms and receptacles:

Store only in the original receptacle. Prevent any seepage into the ground.

Use only receptacles specifically permitted for this substance/product.

Information about storage in

one common storage facility: Do not store or park organic peroxide together with heavy metal compounds and amines.

Store away from foodstuffs, drinks and feeding stuffs.

 $\cdot \ \textbf{Further information about}$ 

storage conditions:

Keep container tightly sealed. Protect from heat and direct sunlight. Protect from contamination.

Store under lock and key and out of the reach of children.

· Recommended storage temperature (To maintain

quality):

+5 .... +25 °C

Storage class: 5.2

· 7.3 Specific end use(s) No further relevant information available.

Additional information: The lists valid during the making were used as basis.

8.2 Exposure controls Appropriate engineering

controls No further data; see section 7.

Individual protection measures, such as personal protective equipment

General protective and

hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals.

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing

Wash hands before breaks and at the end of work.

Store protective clothing separately.

Avoid close or long term contact with the skin. Avoid contact with the eyes and skin.

Do not eat, drink, smoke or sniff while working. Use skin protection cream for skin protection.

Be sure to clean skin thoroughly after work and before breaks.

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer Respiratory protection:

exposure use self-contained respiratory protective device.

Use suitable respiratory device when it exceed exposure limit and when insufficiently ventilated.

Filter A2

· Hand protection Only use chemical-protective gloves with CE-labelling of category III.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Protective gloves · Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of

quality and varies from manufacturer to manufacturer.

Butyl rubber, BR

Fluorocarbon rubber (Viton) Nitrile rubber, NBR

Neoprene

· Penetration time of glove

material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be

observed.

· Eye/face protection

Tightly sealed goggles

(Contd. of page 6)

#### **SECTION 10: Stability and reactivity**

· 10.1 Reactivity

No further relevant information available.

· 10.2 Chemical stability

Thermal decomposition / conditions to be avoided:

SADT (Self Accelerating Decomposition Temperature) is the lowest temperature at which self accelerating decomposition may occur with substance in the packaging as used in transport. A dangerous selfaccelerating decomposition reaction and, under certain circumstances, explosion or fire can be cause decomposition at and above the temperature. Contact with incompatible substances can cause

decomposition at or below the SADT

No decomposition if used and stored according to specifications.

To avoid thermal decomposition do not overheat.

· 10.3 Possibility of hazardous

reactions

10.4 Conditions to avoid

· Additional information:

· 10.5 Incompatible materials:

Self-accelerating decomposition at SADT. No further relevant information available.

Rapid decomposition by dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g.

heavy-metal compounds and amines).

· 10.6 Hazardous decomposition

products:

Hydrocarbons, carbondioxide and -monoxid.

No hazardous decomposition products if used and stored according to specifications.

Emergency procedures will vary depending on conditions. The customer should have an emergency

response plane in place.

#### **SECTION 11: Toxicological information**

· 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

 Acute toxicity Toxic if inhaled. LD/LC50 values relevant for classification:

|                                  | 123-42-2 4-hydroxy-4-methylpentan-2-one |        |                       |  |  |
|----------------------------------|---|--------|-----------------------|--|--|
|                                  | Oral                                    | LD50   | 3,002 mg/kg (rattus)  |  |  |
|                                  | 13784-51-5 2,4-Pentadione, peroxide     |        |                       |  |  |
|                                  | Oral                                    | LD50   | >2,000 mg/kg (rattus) |  |  |
| 75-91-2 tert-butyl hydroperoxide |   |        |                       |  |  |
|                                  | <u> </u>                                | 1.5.50 | 00= " (/=00/) / //    |  |  |

Oral LD50 805 mg/kg /(70%) (rattus)

LD50 633 mg/kg /(70%) (cuniculosus) Dermal Inhalative LC50 / 4h 1.2 mg/l /(70%) (rattus)

123-54-6 pentane-2,4-dione

LD50 Oral 575 mg/kg (rattus) LD50 Dermal 790 mg/kg (rattus) Inhalative LC50 / 4h 5.1 mg/l (rattus)

· Skin corrosion/irritation Causes severe skin burns and eye damage.

Serious eye damage/irritation

Causes serious eye damage.

Respiratory or skin

sensitisation May cause an allergic skin reaction. Germ cell mutagenicity Suspected of causing genetic defects. · Carcinogenicity Suspected of causing cancer. · STOT-single exposure May cause respiratory irritation.

· 11.2 Information on other hazards

· Endocrine disrupting properties

None of the ingredients is listed.

#### **SECTION 12: Ecological information**

· 12.1 Toxicity

· Aquatic toxicity:

13784-51-5 2,4-Pentadione, peroxide

EC50 / 72h | 5.4 mg/l (alga (Süsswasser))

LC50 / 96h 67.7 mg/l (piscis)

EC50 / 48h 7.1 mg/l (daphnia magna)

75-91-2 tert-butyl hydroperoxide

EC50 / 72h | 2.1 mg/l /(70%) (selenastrum capricornutum)

(Contd. on page 8)

Printing date 02.01.2024 Version: 9 (replaces version 8) Revision: 26.06.2023

## Trade name: PEROXAN A-50 M

(Contd. of page 7)
LC50 / 96h | 42.3 mg/l /(70%) (pimephales promelas)
EC50 | 24.3 mg/l /(70%) (activa sludge)
EC50 / 48h | 20 mg/l /(70%) (daphnia magna)

123-54-6 pentane-2,4-dione
LC50 / 96h | 72 mg/l (oncorhynchus mykiss)
EC50 / 48h | 75 mg/l (daphnia magna)

12.2 Persistence and degradability

Degree of elimination:

· Classification:

123-42-2 4-hydroxy-4-methylpentan-2-one
Degradation (Readily biodegradable) (OECD 301 A)

13784-51-5 2,4-Pentadione, peroxide

Degradation (Readily biodegradable) (OECD 301 D)

75-91-2 tert-butyl hydroperoxide

Degradation (Not readily biodegradable) (OECD 301 D)

123-54-6 pentane-2,4-dione

Degradation (Readily biodegradable) (OECD 301 C)

7722-84-1 hydrogen peroxide solution

Degradation (Readily biodegradable)

12.3 Bioaccumulative potential

| · Partition coefficient: nOctanol/water: [Log Kow] |                                |              |  |  |  |
|--|--------------------------------|--------------|--|--|--|
| 123-42-2   | 4-hydroxy-4-methylpentan-2-one | -0,09 (20°C) |  |  |  |
| 13784-51-5   | 2,4-Pentadione, peroxide       | 1,1 (20°C)   |  |  |  |
| 75-91-2  | tert-butyl hydroperoxide       | 0,85 (30 °C) |  |  |  |
|  | pentane-2,4-dione              | 0,68 (20°C)  |  |  |  |
| 7722-84-1  | hydrogen peroxide solution     | -1,57 (20°C) |  |  |  |
| 102-82-9   | tributylamine                  | 3,34 (25 °C) |  |  |  |
| 110-05-4   | di-tert-butyl peroxide         | 3,2 (22°C)   |  |  |  |

• 12.4 Mobility in soil No further relevant information available.

12.5 Results of PBT and vPvB assessment

• **PBT:**• **ryvB:**The substances in the mixture do not meet the PBT/vPvB criteria according to UK REACH, annex XIII.

The substances in the mixture do not meet the PBT/vPvB criteria according to UK REACH, annex XIII.

· 12.6 Endocrine disrupting

properties

The product does not contain substances with endocrine disrupting properties.

12.7 Other adverse effects

· Remark: Harmful to fish

· Additional ecological information:

• General notes: Must not reach sewage water or drainage ditch undiluted or unneutralised.

Harmful to aquatic organisms

Water hazard class 3 (German Regulation) (Self-assessment): extremely hazardous for water Do not allow product to reach ground water, water course or sewage system, even in small quantities.

Danger to drinking water if even extremely small quantities leak into the ground.

#### **SECTION 13: Disposal considerations**

13.1 Waste treatment methods

· Recommendation

After diluting with a suitable desentisation agent to 10 %, the solution must be supplied to a special treatment (e. g. thermal utilization) under observance of all official regulations.

Must not be disposed together with household garbage. Do not allow product to reach sewage system

• Waste disposal key: Please contact your hazardous waste disposers to assign the right EWC-(European waste catalog)-

number.

· Uncleaned packaging:

Recommendation: This material and its container must be disposed of as hazardous waste.

#### **SECTION 14: Transport information**

· 14.1 UN number or ID number

· ADR, IMDG, IATA UN3105
