• 2 The Peroxide Company

Revision: 14.12.2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

· 1.1 Product identifier

PEROXAN BU M2

· Trade name:	PEROXAN BU M2
· 1.2 Relevant identified uses of the	ne substance or mixture and uses advised against No further relevant information available.
 Application of the substance / the mixture 	Reaction initiator For industrial use
 1.3 Details of the supplier of the Manufacturer/Supplier: 	safety data sheet PERGAN GmbH Hilfsstoffe für industrielle Prozesse Schlavenhorst 71 D-46395 Bocholt Tel: +49 2871 9902-0 Fax: +49 2871 9902-50
 Further information obtainable from: 1.4 Emergency telephone number: 	Environment protection / Security of labour Qualified person: E-mail: msds@pergan.com - Tel: +49 2871 9902-0

SECTION 4: First aid measures

 4.1 Description of first aid measure 	ures
· General information:	Take care of personal protection for the first aider.
• After inhalation:	In case of unconsciousness place patient stably in side position for transportation. Take affected persons into fresh air and keep quiet.
· After skin contact:	Immediately wash with water and soap and rinse thoroughly. Immediately remove contaminated clothing.
 After eye contact: 	Rinse opened eye for several minutes under running water.
• After swallowing:	If symptoms persist consult doctor.
4.2 Most important symptoms and effects, both acute and	
delayed	No further relevant information available.
 4.3 Indication of any immediate medical attention and special 	
treatment needed	No further relevant information available.

SECTION 5: Firefighting measures · 5.1 Extinguishing media • Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam. 5.2 Special hazards arising from the substance or mixture Under certain fire conditions, traces of other toxic gases cannot be excluded. Hydrocarbons, carbondioxide and -monoxid. · 5.3 Advice for firefighters · Protective equipment: Do not inhale explosion gases or combustion gases.

Printing date 04.04.2024

Version: 14 (replaces version 13)

Revision: 14.12.2023

(Contd. on page 4) GB

Trade name: PEROXAN BU M2

Additional information	Cool endangered receptacles with water spray. Self-protection first!
SECTION 6: Accidental release	se measures
6.1 Personal precautions, protective equipment and emergency procedures	Keep away from ignition sources. In case of further temperature should be cooled with waterspray from a safe distance. Wear breathing apparatus with filter A during decomposition of materials. Wear protective equipment. Keep unprotected persons away.
6.2 Environmental precautions:	Inform respective authorities in case of seepage into water course or sewage system.
6.3 Methods and material for	
containment and cleaning up:	Dispose contaminated material as waste according to section 13. Ensure adequate ventilation. Large quantities should be diluted with suitable desensitation agent to a concentration below 10 % before disposal. Soak up with absorbant material (e. g. Vermiculit) and dispose of in accordance with government regulations.
6.4 Reference to other sections	See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. In case of large spillage the environmental authority should be informed.

· 7.1 Precautions for safe handling Keep away from heat and direct sunlight. Open and handle receptacle with care. Prevent formation of aerosols. Wear suitable respiratory protective device when decanting larger quantities without extractor facilities. Do not refill residue into storage receptacles. Restrict the quantity stored at the work place. Before break and at the end of work hands should be thoroughly washed. Only use tools made of suitable materials (e. g. polyethylene or stainless steel). Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e.g. heavymetal compounds and amines). While using do not eat, drink or smoke. Do not generate flames or sparks. Keep product and emptied container away from heat and sources of ignition. Avoid shock and friction. Take precautionary measures against static discharges. Do not smoke. · Information about fire - and explosion protection: Protect from heat. Protect against electrostatic charges. Prevent impact and friction. Use explosion-proof apparatus / fittings and spark-proof tools. Fumes can combine with air to form an explosive mixture. Wear shoes with conductive soles. Formation of flammable or explosive gas/air-mixtures is possible. Avoid open flames, sparks, direct sunlight and other sources of ignition. Keep ignition sources away - Do not smoke. · 7.2 Conditions for safe storage, including any incompatibilities · Storage: Pay attention to the special requirements of your local autorithies for storing dangerous goods. · Requirements to be met by storerooms and receptacles: Store only in the original receptacle. Prevent any seepage into the ground. Use only receptacles specifically permitted for this substance/product.

SECTION 10: Stability and reactivity

of the stability and to	Justifier and the second se
· 10.1 Reactivity · 10.2 Chemical stability · Thermal decomposition /	No further relevant information available.
conditions to be avoided:	SADT (Self Accelerating Decomposition Temperature) is the lowest temperature at which self accelerating decomposition may occur with substance in the packaging as used in transport. A dangerous self-accelerating decomposition reaction and, under certain circumstances, explosion or fire can be cause decomposition at and above the temperature. Contact with incompatible substances can cause decomposition at or below the SADT. No decomposition if used and stored according to specifications. To avoid thermal decomposition do not overheat.
 10.3 Possibility of hazardous 	
reactions	Self-accelerating decomposition at SADT.
 10.4 Conditions to avoid 	No further relevant information available.
· 10.5 Incompatible materials:	Rapid decomposition by dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy-metal compounds and amines).
· 10.6 Hazardous decomposition	
products:	Hydrocarbons, carbondioxide and -monoxid. No hazardous decomposition products if used and stored according to specifications.
· Additional information:	Emergency procedures will vary depending on conditions. The customer should have an emergency response plane in place.

·Label	5.2
· Class · Label	5.2 Organic peroxides. 5.2
14.4 Packing group · ADR, IMDG, IATA	Void
14.5 Environmental hazards:	Product contains environmentally hazardous substances: tert-BUTYL CUMYL PEROXIDE
· Marine pollutant:	Symbol (fish and tree)
· Special marking (ADR):	Symbol (fish and tree)
• 14.6 Special precautions for user	Warning: Organic peroxides.
 Hazard identification number (Kemler code): EMS Number: 	- F-J,S-R
· Stowage Category	D
· Stowage Code	SW1 Protected from sources of heat.
· Segregation Code	SG35 Stow "separated from" SGG1-acids SG36 Stow "separated from" SGG18-alkalis. SG72 See 7.2.6.3.2.
14.7 Maritime transport in bulk according to IMO instr	ruments Not applicable.
· Transport/Additional information:	
ADR	
Limited quantities (LQ)	125 ml
Excepted quantities (EQ)	Code: E0 Not permitted as Excepted Quantity
· Transport category	2
Tunnel restriction code	D
· RID / GGVSEB:	like ADR
·IMDG	
Limited quantities (LQ)	125 ml
Excepted quantities (EQ)	Code: E0 Not normitted on Excepted Quantity
	Not permitted as Excepted Quantity

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Poisons Act Regulated explosives precursors None of the ingredients is listed. · Regulated poisons None of the ingredients is listed. · Reportable explosives precursors None of the ingredients is listed.
