The Peroxide Company

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

### · 1.1 Product identifier

**PEROXAN ME-30 LX** 

· Trade name:	PERUXAN ME-30 LX
· 1.2 Relevant identified uses	of the substance or mixture and uses advised against
	No further relevant information available.
<ul> <li>Application of the substance</li> </ul>	e /
the mixture	Reaction initiator
	For industrial use
· 1.3 Details of the supplier of	the safety data sheet
· Manufacturer/Supplier:	PERGAN GmbH
	Hilfsstoffe für industrielle Prozesse
	Schlavenhorst 71
	D-46395 Bocholt

		Tel: +49 2871 9902-0 Fax: +49 2871 9902-50
<ul> <li>Further information obtainable from: Qualified person: E-mail: msds@pergan.com</li> <li>1.4 Emergency telephone number: - Tel: +49 2871 9902-0</li> </ul>	from: • 1.4 Emergency telephone	

### **SECTION 2: Hazards identification**

### · 2.1 Classification of the substance or mixture

· Classification according to Regulation (EC) No 1272/2008		
H242	Heating may cause a fire.	
H332	Harmful if inhaled.	
H314	Causes severe skin burns and eye damage.	
H318	Causes serious eye damage.	
H361d	Suspected of damaging the unborn child.	
H412	Harmful to aquatic life with long lasting effects.	
	cording H242 H332 H314 H318 H361d	

### · 2.2 Label elements

2.2 Label elements Labelling according to		
Regulation (EC) No 1272/2008	The product is clas	sified and labelled according to the GB CLP regulation.
· Hazard pictograms		
	GHS02 GHS05 GH	IS07 GHS08
· Signal word	Danger	
<ul> <li>Hazard-determining components of labelling:</li> </ul>		
· Hazard statements	H242 Heating ma H332 Harmful if ir H314 Causes sev H361d Suspected H412 Harmful to a	y cause a fire. nhaled. rere skin burns and eye damage. of damaging the unborn child. aquatic life with long lasting effects.

· Additional information:	For the wording of the listed hazard phrases refer to section 16.	

### **SECTION 4: First aid measures**

• 4.1 Description of first aid measurements	ures
· General information:	Immediately remove any clothing soiled by the product. Take care of personal protection for the first aider.
· After inhalation:	In case of unconsciousness place patient stably in side position for transportation. Take affected persons into fresh air and keep quiet.
· After skin contact:	Immediately wash with water and soap and rinse thoroughly. Immediately remove contaminated clothing.
After eye contact:     After swallowing:	Rinse opened eye for several minutes under running water. Then consult a doctor. Drink plenty of water and provide fresh air. Call for a doctor immediately.
<ul> <li>4.2 Most important symptoms and effects, both acute and delayed</li> </ul>	No further relevant information available.
4.3 Indication of any immediate medical attention and special	
treatment needed	No further relevant information available.

#### **SECTION 5: Firefighting measures**

· 5.1 Extinguishing media

the substance or mixture

5.2 Special hazards arising from

• Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Under certain fire conditions, traces of other toxic gases cannot be excluded. Hydrocarbons, carbondioxide and -monoxid.

Printing date 11.12.2023

The Peroxide Company

## Trade name: PEROXAN ME-30 LX

F 2 Advise for firefielders	(Contd. of page
<ul> <li>5.3 Advice for firefighters</li> <li>Protective equipment:</li> </ul>	Do not inhale explosion gases or combustion gases.
	Cool endangered receptacles with water spray.
	Self-protection first!
SECTION 6: Accidental relea	se measures
6.1 Personal precautions, protective equipment and	
emergency procedures	Keep away from ignition sources.
	In case of further temperature should be cooled with waterspray from a safe distance.
	Wear breathing apparatus with filter A during decomposition of materials.
	Wear protective equipment. Keep unprotected persons away.
6.2 Environmental precautions:	Inform respective authorities in case of seepage into water course or sewage system.
	Do not allow to enter sewers/ surface or ground water.
6.3 Methods and material for	
containment and cleaning up:	Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.
	Large quantities should be diluted with suitable desensitation agent to a concentration below 10 % before disposal.
	Soak up with absorbant material (e. g. Vermiculit) and dispose of in accordance with government regulations.
6.4 Reference to other sections	See Section 7 for information on safe handling.
	See Section 8 for information on personal protection equipment.
	See Section 13 for disposal information.
	In case of large spillage the environmental authority should be informed.

### **SECTION 7: Handling and storage**

SECTION 7. Halluling and st	braye
<ul> <li>7.1 Precautions for safe handling</li> </ul>	Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols. Wear suitable respiratory protective device when decanting larger quantities without extractor facilities. Do not refill residue into storage receptacles. Restrict the quantity stored at the work place. Use only in well ventilated areas. Before break and at the end of work hands should be thoroughly washed. Only use tools made of suitable materials (e. g. polyethylene or stainless steel). Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy- metal compounds and amines). Avoid contact with skin and eyes. While using do not eat, drink or smoke. Avoid shock and friction. Wood smoke.
<ul> <li>Information about fire - and explosion protection:</li> </ul>	Protect from heat. Protect against electrostatic charges. Prevent impact and friction. Fumes can combine with air to form an explosive mixture. Wear shoes with conductive soles. Avoid open flames, sparks, direct sunlight and other sources of ignition.
<ul> <li>7.2 Conditions for safe storage,</li> <li>Storage:         <ul> <li>Requirements to be met by storerooms and receptacles:</li> <li>Information about storage in</li> </ul> </li> </ul>	including any incompatibilities Pay attention to the special requirements of your local autorithies for storing dangerous goods. Store only in the original receptacle. Prevent any seepage into the ground. Use only receptacles specifically permitted for this substance/product.

• Information about storage in one common storage facility: Do not store or park organic peroxide together with heavy metal compounds and amines.
