The Peroxide Company

SECTION 1: Identification of the substance/mixture and of the company/undertaking

```
· 1.1 Product identifier
```

PEROXAN MI-60 KPX

· Trade name: 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available. · Application of the substance / the mixture Reaction initiator For industrial use

 1.3 Details of the supplier of the Manufacturer/Supplier: 	safety data sheet PERGAN GmbH Hilfsstoffe für industrielle Prozesse Schlavenhorst 71 D-46395 Bocholt Tel: +49 2871 9902-0 Fax: +49 2871 9902-50
 Further information obtainable from: 1.4 Emergency telephone number: 	Qualified person: E-mail: msds@pergan.com - Tel: +49 2871 9902-0

SECTION 2: Hazards identification

· 2.1 Classification of the substance or mixture

· Classification acc	Classification according to Regulation (EC) No 1272/2008			
Flam. Liq. 3	H226	ammable liquid and vapour.		
Org. Perox. C	H242	Heating may cause a fire.		
Acute Tox. 3	H331	Toxic if inhaled.		
Skin Corr. 1C	H314	Causes severe skin burns and eye damage.		
Eye Dam. 1	H318	Causes serious eye damage.		
Skin Sens. 1	H317	May cause an allergic skin reaction.		
Carc. 2	H351	Suspected of causing cancer.		
Repr. 2	H361d	Suspected of damaging the unborn child.		
Asp. Tox. 1	H304	May be fatal if swallowed and enters airways.		
Aquatic Acute 1	H400	Very toxic to aquatic life.		
Aquatic Chronic 2	H411	Toxic to aquatic life with long lasting effects.		
 2.2 Label elements Labelling accordi Regulation (EC) N Hazard pictogram 	ng to Io 1272	2/2008 The product is classified and labelled according to the CLP regulation.		
· Signal word		Danger		

Danger

· Hazard-determining	
components of labelling:	Reaction mass of 4-methylpentane-2,2-diyl dihydroperoxide and 4-methylpentane-2-one and peroxybis-4-
	methylpentane-2,2-diyl dihydroperoxide
	1-isopropyl-2,2-dimethyltrimethylene diisobutyrate
	4-methylpentan-2-one
	tert-butyl perbenzoate
• Hazard statements	H226 Flammable liquid and vapour.
	H242 Heating may cause a fire.
	H331 Toxic if inhaled.
	H314 Causes severe skin burns and eye damage.
	H317 May cause an allergic skin reaction.
	H351 Suspected of causing cancer.
	H361d Suspected of damaging the unborn child.
	H304 May be fatal if swallowed and enters airways.
	H410 Very toxic to aquatic life with long lasting effects.
Precautionary statements	P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
	P220 Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and
	accelerators (e. g. heavy metal compounds and amines).
	P234 Keep only in original packaging.
	P243 Take action to prevent static discharges.
	P264 Wash thoroughly after handling.
	P273 Avoid release to the environment.
	(Contd. on page 2)

		Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
		IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
	P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
	P405	Store locked up.
	P410	Protect from sunlight.
	P411+P235	Store at temperatures not exceeding +25°C. Keep cool.
	P420	Store separately.
		Dispose of contents/container in accordance with local/regional/national/international regulations.
2.3 Other hazards		5
Results of PBT and vPvB asses	sment	
· PBT:	The substances in	the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.
· vPvB:		the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.
· Determination of endocrine-		
disrupting properties	The product does	not contain substances with endocrine disrupting properties.
aloraphing properties	The product does i	not contain substances with endocrine disrupting properties.

· Additional information:	For the wording of the listed hazard phrases refer to section 16.	

SECTION 4: First aid measures

· 4.1 Description of first aid measures · General information:

Immediately remove any clothing soiled by the product. Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

Take care of personal protection for the first aider.

Version: 7 (replaces version 6)

PERGAN The Peroxide Company

Revision: 16.02.2023

Trade name: PEROXAN MI-60 KPX

		(Contd. of page 2)
 After inhalation: 	Supply fresh air and to be sure call for a doctor.	
	In case of unconsciousness place patient stably in side position for transportation.	
After alsin as the st	Take affected persons into fresh air and keep quiet.	
· After skin contact:	Immediately wash with water and soap and rinse thoroughly. Immediately remove contaminated clothing.	
After ave contact		
· After eye contact:	Rinse opened eye for several minutes under running water. Then consult a doctor.	
 After swallowing: 	Call for a doctor immediately.	
 4.2 Most important symptoms 		
and effects, both acute and		
delayed	No further relevant information available.	
4.3 Indication of any immediate		
medical attention and special		
treatment needed	No further relevant information available.	

SECTION 5: Firefighting measures

5.1 Extinguishing media

	5.1 Exiliguisiling meula	
	· Suitable extinguishing agents:	CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
•	5.2 Special hazards arising from	
	the substance or mixture	Under certain fire conditions, traces of other toxic gases cannot be excluded.
		Hydrocarbons, carbondioxide and -monoxid.
•	5.3 Advice for firefighters	
	Protective equipment:	Mouth respiratory protective device.
		Do not inhale explosion gases or combustion gases.
	· Additional information	Cool endangered receptacles with water spray.
		Self-protection first!

SECTION 6: Accidental release measures

 6.1 Personal precautions, protective equipment and 	
emergency procedures	Keep away from ignition sources.
	In case of further temperature should be cooled with waterspray from a safe distance.
	Wear breathing apparatus with filter A during decomposition of materials.
	Wear protective equipment. Keep unprotected persons away.
· 6.2 Environmental precautions:	Inform respective authorities in case of seepage into water course or sewage system.
	Do not allow to enter sewers/ surface or ground water.
· 6.3 Methods and material for	
containment and cleaning up:	Dispose contaminated material as waste according to section 13.
containment and cleaning up.	Ensure adequate ventilation.
	Large quantities should be diluted with suitable desensitation agent to a concentration below 10 % before disposal.
	Soak up with absorbant material (e. g. Vermiculit) and dispose of in accordance with government regulations.
· 6.4 Reference to other sections	See Section 7 for information on safe handling.
	See Section 8 for information on personal protection equipment.
	See Section 13 for disposal information.
	In case of large spillage the environmental authority should be informed.
	ni odob or largo opiliago nio orvitorimontal admonty offolia be informed.

SECTION 7: Handling and storage

· 7.1 Precautions for safe	
handling	Keep away from heat and direct sunlight.
C C	Ensure good ventilation/exhaustion at the workplace.
	Open and handle receptacle with care.
	Prevent formation of aerosols.
	Wear suitable respiratory protective device when decanting larger quantities without extractor facilities.
	Do not refill residue into storage receptacles.
	Restrict the quantity stored at the work place.
	Use only in well ventilated areas.
	Before break and at the end of work hands should be thoroughly washed.
	Only use tools made of suitable materials (e. g. polyethylene or stainless steel).
	Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy- metal compounds and amines).
	Avoid contact with skin and eyes.
	While using do not eat, drink or smoke.

	Avoid shock and friction.
	Do not smoke.
Information about fire - and	
explosion protection:	Protect from heat.
	Prevent impact and friction.
	Fumes can combine with air to form an explosive mixture.
	Wear shoes with conductive soles.
	Avoid open flames, sparks, direct sunlight and other sources of ignition.
7.2 Conditions for safe storage,	including any incompatibilities
Storage:	Pay attention to the special requirements of your local autorithies for storing dangerous goods.
· Requirements to be met by	
storerooms and receptacles:	Store only in the original receptacle.
	Prevent any seepage into the ground.
	Use only receptacles specifically permitted for this substance/product.
· Information about storage in	
one common storage facility:	Do not store or park organic peroxide together with heavy metal compounds and amines. Store away from foodstuffs, drinks and feeding stuffs.
· Further information about	
storage conditions:	Keep container tightly sealed.
5	Protect from heat and direct sunlight.
	Protect from contamination.
	Store under lock and key and out of the reach of children.
	Storage in a collecting room is required.
· Recommended storage	
temperature (10 maintain	
temperature (To maintain quality):	+5 +25 °C

· Density at 20 °C:	0,995 g/cm³
Relative density	Not determined.
· Vapour density	Not determined.
9.2 Other information	
· Appearance:	
Form:	Fluid
· Important information on protection of health and environmen	t,
and on safety.	
· Ignition temperature:	Product is not selfigniting.
Explosive properties:	Product is not explosive. However, formation of explosive air/vapour
	mixtures are possible.
· Change in condition	•
· Evaporation rate	Not determined.
Information with regard to physical hazard classes	
Explosives	Void
· Flammable gases	Void
· Aerosols	Void
· Oxidising gases	Void
· Gases under pressure	Void
· Flammable liquids	Flammable liquid and vapour.
· Flammable solids	Void
· Self-reactive substances and mixtures	Void
· Pyrophoric liquids	Void
· Pyrophoric solids	Void
• Self-heating substances and mixtures	Void
· Substances and mixtures, which emit flammable gases in	
contact with water	Void
· Oxidising liquids	Void
· Oxidising solids	Void
· Organic peroxides	Heating may cause a fire.
· Corrosive to metals	Void
· Desensitised explosives	Void
	VUIU
. Other estaty characteristics	
 Other safety characteristics Active oxygen 	8,5 - 8,8 %

SECTION 10: Stability and reactivity

· 10.1 Reactivity

10.2 Chemical stability

 Thermal decomposition / conditions to be avoided: No further relevant information available.

SADT (Self Accelerating Decomposition Temperature) is the lowest temperature at which self accelerating decomposition may occur with substance in the packaging as used in transport. A dangerous self-accelerating decomposition reaction and, under certain circumstances, explosion or fire can be cause decomposition at and above the temperature. Contact with incompatible substances can cause decomposition at or below the SADT.

No decomposition if used and stored according to specifications.

Printing date 02.01.2024

Version: 7 (replaces version 6)

Revision: 16.02.2023

The Peroxide Company

Trade name: PEROXAN MI-60 KPX

	(Contd. of page 7)
	To avoid thermal decomposition do not overheat.
 10.3 Possibility of hazardous 	
reactions	Self-accelerating decomposition at SADT.
 10.4 Conditions to avoid 	No further relevant information available.
· 10.5 Incompatible materials:	Rapid decomposition by dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy-metal compounds and amines).
· 10.6 Hazardous decomposition	
products:	Hydrocarbons, carbondioxide and -monoxid.
-	No hazardous decomposition products if used and stored according to specifications.
· Additional information:	Emergency procedures will vary depending on conditions. The customer should have an emergency response plane in place.

SECTION 11: Toxicological information

properties	The product does not contain substances with endocrine disrupting properties.	
· 12.7 Other adverse effects	Manual Anna Carl	
 Remark: Additional ecological information 	Very toxic for fish	
· General notes:	Must not reach sewage water or drainage ditch undiluted or unneutralised.	
	Also poisonous for fish and plankton in water bodies.	
	Very toxic for aquatic organisms	
	Water hazard class 2 (German Regulation) (Self-assessment): hazardous for wa	ter
	Do not allow product to reach ground water, water course or sewage system.	
	Danger to drinking water if even small quantities leak into the ground.	

SECTION 13: Disposal considerations

13.1 Waste treatment methods
 Recommendation

After diluting with a suitable desentisation agent to 10 %, the solution must be supplied to a special treatment (e. g. thermal utilization) under observance of all official regulations.

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

· Waste disposal key:

Please contact your hazardous waste disposers to assign the right EWC-(European waste catalog)number.
