PERGAN The Peroxide Company

Revision: 04.03.2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

```
· 1.1 Product identifier
```

PEROXAN A-25 M

· Trade name:	PERUXAN A-23 WI
· 1.2 Relevant identified uses of the	ne substance or mixture and uses advised against No further relevant information available.
 Application of the substance / the mixture 	Reaction initiator For industrial use
• 1.3 Details of the supplier of the • Manufacturer/Supplier:	safety data sheet PERGAN GmbH Hilfsstoffe für industrielle Prozesse Schlavenhorst 71 D-46395 Bocholt Tel: +49 2871 9902-0 Fax: +49 2871 9902-50
 Further information obtainable from: 1.4 Emergency telephone number: 	Qualified person: E-mail: msds@pergan.com - Tel: +49 2871 9902-0

SECTION 2: Hazards identification

• 2.1 Classification of the substance or mixture

 Classification acc 	cording	g to Reg	ulation (EC) No 1272/2008
Org. Perox. D	H242	Heating	y may cause a fire.
Acute Tox. 4	H332	Harmfu	l if inhaled.
Skin Corr. 1C	H314	Causes	s severe skin burns and eye damage.
Eye Dam. 1	H318	Causes	s serious eye damage.
Skin Sens. 1	H317	May ca	use an allergic skin reaction.
Muta. 2	H341	Suspec	ted of causing genetic defects.
Carc. 2	H351	Suspec	ted of causing cancer.
Repr. 2	H361d	Suspec	ted of damaging the unborn child.
STOT SE 3	H335	May ca	use respiratory irritation.
Aquatic Chronic 3	H412	Harmfu	I to aquatic life with long lasting effects.
2.2 Label elements Labelling accordi Regulation (EC) N Hazard pictogram	ing to No 1272	2/2008	The product is classified and labelled according to the CLP regulation. GHS02 GHS05 GHS07 GHS08
Signal word			Danger
· Hazard-determin components of I		g:	tert-butyl hydroperoxide 4-hydroxy-4-methylpentan-2-one 2,4-Pentadione, peroxide pentane-2,4-dione
 Hazard statement Precautionary st 		nts	 H242 Heating may cause a fire. H332 Harmful if inhaled. H314 Causes severe skin burns and eye damage. H317 May cause an allergic skin reaction. H341 Suspected of causing genetic defects. H351 Suspected of causing cancer. H361d Suspected of damaging the unborn child. H335 May cause respiratory irritation. H412 Harmful to aquatic life with long lasting effects. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No
Ţ			smoking. P234 Keep only in original packaging. P264 Wash thoroughly after handling. P273 Avoid release to the environment. P280 Wear protective gloves/protective clothing/eye protection/face protection. P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310 Immediately call a POISON CENTER/doctor. P405 Store locked up.

(Contd. on page 2)

Printing date 04.04.2024

The Peroxide Company

Trade name: PEROXAN A-25 M

		(Contd. of page 1)
	P410	Protect from sunlight.
	P411+P235	Store at temperatures not exceeding +25°C. Keep cool.
	P420	Store separately.
	P501	Dispose of contents/container in accordance with local/regional/national/international regulations.
· 2.3 Other hazards		
• Results of PBT and vPvB asse	ssment	
· PBT:	The substances	in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.
· vPvB:		in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.
 Determination of endocrine- 		
disrupting properties	The product doe	s not contain substances with endocrine disrupting properties.

SECTION 3: Composition/information on ingredients

· 3.2 Mixtures

SECTION 4: First aid measures

 4.1 Description of first aid m 	neasures	
General information:	Immediately remove any clothing soiled by the product.	
	Take care of personal protection for the first aider.	
 After inhalation: 	Supply fresh air and to be sure call for a doctor.	
	In case of unconsciousness place patient stably in side position for transportation.	
	Take affected persons into fresh air and keep quiet.	
 After skin contact: 	Immediately wash with water and soap and rinse thoroughly.	
	Immediately remove contaminated clothing.	
 After eye contact: 	Rinse opened eye for several minutes under running water. Then consult a doctor.	
After swallowing:	If symptoms persist consult doctor.

4.2 Most important symptoms		
and effects, both acute and delayed	No further relevant information available.	
4.3 Indication of any immediate	no luriner relevant information available.	
medical attention and special		
treatment needed	No further relevant information available.	
SECTION 5: Firefighting mea	sures	
5.1 Extinguishing media		
	CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.	
5.2 Special hazards arising from		
the substance or mixture	Under certain fire conditions, traces of other toxic gases cannot be excluded.	
	Hydrocarbons, carbondioxide and -monoxid.	
5.3 Advice for firefighters		
Protective equipment:	Do not inhale explosion gases or combustion gases.	
· Additional information	Cool endangered receptacles with water spray. Self-protection first!	
SECTION 6: Accidental relea	se measures	
6.1 Personal precautions,		
protective equipment and		
emergency procedures	Keep away from ignition sources.	
emergency procedures	In case of further temperature should be cooled with waterspray from a safe distance.	
	Wear breathing apparatus with filter A during decomposition of materials.	
	Wear protective equipment. Keep unprotected persons away.	
6.2 Environmental precautions:	Inform respective authorities in case of seepage into water course or sewage system.	
	Do not allow to enter sewers/ surface or ground water.	
6.3 Methods and material for		
containment and cleaning up:	Dispose contaminated material as waste according to section 13.	
containing up.	Ensure adequate ventilation.	
	Large quantities should be diluted with suitable desensitation agent to a concentration bel	ow 10 % before
	disposal.	
	Soak up with absorbant material (e. g. Vermiculit) and dispose of in accordance with gover	rnment
	regulations.	
6.4 Reference to other sections	See Section 7 for information on safe handling.	
	See Section 8 for information on personal protection equipment.	
	See Section 13 for disposal information.	

SECTION 7: Handling and storage

 7.1 Precautions for safe handling 	Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols. Wear suitable respiratory protective device when decanting larger quantities without extractor facilities. Do not refill residue into storage receptacles. Restrict the quantity stored at the work place. Use only in well ventilated areas. Before break and at the end of work hands should be thoroughly washed.
	Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy- metal compounds and amines). Avoid contact with skin and eyes. While using do not eat, drink or smoke. Avoid shock and friction. Do not smoke.
Information about fire	

In case of large spillage the environmental authority should be informed.

 Information about fire - and explosion protection:

Protect from heat. Prevent impact and friction.

		(Contd. of page 3)
	Fumes can combine with air to form an explosive mixture.	
	Wear shoes with conductive soles.	
	Avoid open flames, sparks, direct sunlight and other sources of ignition.	
7.2 Conditions for safe storage,	including any incompatibilities	
Storage:	Pay attention to the special requirements of your local autorithies for storing dangerous go	ods.
Requirements to be met by		
storerooms and receptacles:	Store only in the original receptacle.	
	Prevent any seepage into the ground.	
Information about stoness in	Use only receptacles specifically permitted for this substance/product.	
Information about storage in		
one common storage facility:	Do not store or park organic peroxide together with heavy metal compounds and amines.	
· Further information about	Store away from foodstuffs, drinks and feeding stuffs.	
storage conditions:	Keep container tightly sealed.	
storage conditions.	Protect from heat and direct sunlight.	
	Protect from contamination.	
	Store under lock and key and out of the reach of children.	
	Storage in a collecting room is required.	
 Recommended storage temperature (To maintain 		
quality):	+5 +25 °C	
Storage class:	5.2	
7.3 Specific end use(s)	No further relevant information available.

5	(Contd. of page 5)
· Respiratory protection:	In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.
	Use suitable respiratory device when it exceed exposure limit and when insufficiently ventilated.
	Filter A2
 Hand protection 	Only use chemical-protective gloves with CE-labelling of category III.
	Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
	Protective gloves
 Material of gloves 	The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. Butyl rubber, BR
	Fluorocarbon rubber (Viton)
	Nitrile rubber, NBR
Departmention time of alove	Neoprene
Penetration time of glove	
material	The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
· Eye/face protection	Tightly sealed goggles
· Body protection:	Protective work clothing

SECTION 10: Stability and reactivity

 10.1 Reactivity 10.2 Chemical stability Thermal decomposition / 	No further relevant information available.
conditions to be avoided:	SADT (Self Accelerating Decomposition Temperature) is the lowest temperature at which self accelerating decomposition may occur with substance in the packaging as used in transport. A dangerous self-accelerating decomposition reaction and, under certain circumstances, explosion or fire can be cause decomposition at and above the temperature. Contact with incompatible substances can cause decomposition at or below the SADT. No decomposition if used and stored according to specifications. To avoid thermal decomposition do not overheat.
 10.3 Possibility of hazardous 	
reactions	Self-accelerating decomposition at SADT.
 10.4 Conditions to avoid 	No further relevant information available.
 10.5 Incompatible materials: 	Rapid decomposition by dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy-metal compounds and amines).
 10.6 Hazardous decomposition 	
products:	Hydrocarbons, carbondioxide and -monoxid. No hazardous decomposition products if used and stored according to specifications.
· Additional information:	Emergency procedures will vary depending on conditions. The customer should have an emergency response plane in place.

SECTION 11: Toxicological information

• 11.1 Infor • Acute to		hazard class	es as defined in Regulation (EC) No 1272/2008 Harmful if inhaled.

· Recommendation

number.

After diluting with a suitable desentisation agent to 10 %, the solution must be supplied to a special treatment (e. g. thermal utilization) under observance of all official regulations.

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

Please contact your hazardous waste disposers to assign the right EWC-(European waste catalog)-

· Waste disposal key:

Uncleaned packaging:
 Recommendation:

This material and its container must be disposed of as hazardous waste.
