The Peroxide Company

SECTION 1: Identification of the substance/mixture and of the company/undertaking

```
· 1.1 Product identifier
```

PEROXAN ME-30 LX

· Trade name: 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available. · Application of the substance / the mixture Reaction initiator

	For industrial use
· 1.3 Details of the supplier of the	safety data sheet
· Manufacturer/Supplier:	PERGAN GmbH Hilfsstoffe für industrielle Prozesse Schlavenhorst 71 D-46395 Bocholt Tel: +49 2871 9902-0 Fax: +49 2871 9902-50
 Further information obtainable from: 1.4 Emergency telephone number: 	Qualified person: E-mail: msds@pergan.com - Tel: +49 2871 9902-0

SECTION 2: Hazards identification

\cdot 2.1 Classification of the substance or mixture

· Classification of the substance or mixture		
Org. Perox. E	H242	Heating may cause a fire.
Acute Tox. 4	H332	Harmful if inhaled.
Skin Corr. 1B	H314	Causes severe skin burns and eye damage.
Eye Dam. 1	H318	Causes serious eye damage.
Repr. 2	H361d	Suspected of damaging the unborn child.
Aquatic Chronic 3	H412	Harmful to aquatic life with long lasting effects.

2 Labol ol · 2

2.2 Label elements • Labelling according to Regulation (EC) No 1272/2008 • Hazard pictograms	The product is clas	ssified and labelled according to the CLP regulation.
	GHS02 GHS05 GI	HS07 GHS08
· Signal word	Danger	
 Hazard-determining components of labelling: 		
· Hazard statements	H242 Heating ma H332 Harmful if in H314 Causes sev H361d Suspected H412 Harmful to	ay cause a fire. nhaled. vere skin burns and eye damage. of damaging the unborn child. aquatic life with long lasting effects.
 Precautionary statements 	P305+P351+P338 P310 P403+P235 P405 P410 P411	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy metal compounds and amines). Keep only in original packaging. Take action to prevent static discharges. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection/hearing protection. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor. Store in a well-ventilated place. Keep cool. Store locked up. Protect from sunlight. Store at temperatures not exceeding +30°C.
	P420 P501	Store separately. Dispose of contents/container in accordance with local/regional/national/international regulations.

· Additional information:	For the wording of the listed hazard phrases refer to section 16.	

SECTION 4: First aid measures

• 4.1 Description of first aid measured	
· General information:	Immediately remove any clothing soiled by the product.
	Take care of personal protection for the first aider.
After inhalation:	In case of unconsciousness place patient stably in side position for transportation. Take affected persons into fresh air and keep quiet.
· After skin contact:	Immediately wash with water and soap and rinse thoroughly. Immediately remove contaminated clothing.
· After eye contact:	Rinse opened eye for several minutes under running water. Then consult a doctor.
· After swallowing:	Drink plenty of water and provide fresh air. Call for a doctor immediately.
4.2 Most important symptoms	
and effects, both acute and	
delayed	No further relevant information available.
4.3 Indication of any immediate	
medical attention and special	
treatment needed	No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

• Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Printing date 11.12.2023

Safety data sheet according to 1907/2006/EC, Article 31

Version: 10 (replaces version 9)

Revision: 16.02.2023

Trade name: PEROXAN ME-30 LX

	(Contd. of page 2)
 5.2 Special hazards arising from the substance or mixture 	Under certain fire conditions, traces of other toxic gases cannot be excluded.
	Hydrocarbons, carbondioxide and -monoxid.
5.3 Advice for firefighters	
 Protective equipment: Additional information 	Do not inhale explosion gases or combustion gases.
	Cool endangered receptacles with water spray. Self-protection first!
SECTION 6: Accidental release	se measures
 6.1 Personal precautions, protective equipment and 	
emergency procedures	Keep away from ignition sources.
0 91	In case of further temperature should be cooled with waterspray from a safe distance.
	Wear breathing apparatus with filter A during decomposition of materials.
	Wear protective equipment. Keep unprotected persons away.
 6.2 Environmental precautions: 	Inform respective authorities in case of seepage into water course or sewage system.
	Do not allow to enter sewers/ surface or ground water.
6.3 Methods and material for	
containment and cleaning up:	Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.
	Large quantities should be diluted with suitable desensitation agent to a concentration below 10 % before
	disposal.
	Soak up with absorbant material (e. g. Vermiculit) and dispose of in accordance with government
	regulations.
6.4 Reference to other sections	See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.
	See Section 13 for disposal information.
	In case of large spillage the environmental authority should be informed.

SECTION 7: Handling and storage

Ŭ	0
• 7.1 Precautions for safe handling	Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols. Wear suitable respiratory protective device when decanting larger quantities without extractor facilities. Do not refill residue into storage receptacles. Restrict the quantity stored at the work place. Use only in well ventilated areas. Before break and at the end of work hands should be thoroughly washed. Only use tools made of suitable materials (e. g. polyethylene or stainless steel). Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy- metal compounds and amines). Avoid contact with skin and eyes. While using do not eat, drink or smoke. Avoid shock and friction.
	Do not smoke.
 Information about fire - and explosion protection: 	Protect from heat. Protect against electrostatic charges. Prevent impact and friction. Fumes can combine with air to form an explosive mixture. Wear shoes with conductive soles.
	Avoid open flames, sparks, direct sunlight and other sources of ignition.
7.2 Conditions for safe storage Storage:	, including any incompatibilities Pay attention to the special requirements of your local autorithies for storing dangerous goods.

• Requirements to be met by storerooms and receptacles:

Store only in the original receptacle. Prevent any seepage into the ground. Printing date 11.12.2023

Safety data sheet according to 1907/2006/EC, Article 31

 Appropriate engineer controls 	ng No further data: see section 7.	
	measures, such as personal protective equipment	
· General protective a		
hygienic measures:	The usual precautionary measures are to be adhered to when handling chemicals.	
	Keep away from foodstuffs, beverages and feed.	
	Immediately remove all soiled and contaminated clothing	
	Wash hands before breaks and at the end of work. Store protective clothing separately.	
	Avoid contact with the eyes and skin.	
	Do not eat, drink, smoke or sniff while working.	
	Use skin protection cream for skin protection.	
. Despiratory protectic	Be sure to clean skin thoroughly after work and before breaks.	
Respiratory protection	In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.	
	Use suitable respiratory device when it exceed exposure limit and when insufficiently ventilated.	
	Filter A2	
· Hand protection	Only use chemical-protective gloves with CE-labelling of category III.	
	Selection of the glove material on consideration of the penetration times, rates of diffusion and the	
	degradation	
	Protective gloves	
· Material of gloves	The selection of the suitable gloves does not only depend on the material, but also on further marks of	
	quality and varies from manufacturer to manufacturer.

SECTION 10: Stability an	nd reactivity	
 10.1 Reactivity 10.2 Chemical stability 	No further relevant information available.	

• Thermal decomposition /	
conditions to be avoided:	SADT (Self Accelerating Decomposition Temperature) is the lowest temperature at which self accelerating decomposition may occur with substance in the packaging as used in transport. A dangerous self-accelerating decomposition reaction and, under certain circumstances, explosion or fire can be cause decomposition at and above the temperature. Contact with incompatible substances can cause decomposition at or below the SADT. No decomposition if used and stored according to specifications. To avoid thermal decomposition do not overheat.
• 10.3 Possibility of hazardous	To avoid infinite decomposition do not overheat.
reactions	Self-accelerating decomposition at SADT.
10.4 Conditions to avoid	No further relevant information available.
10.5 Incompatible materials:	Rapid decomposition by dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy-metal compounds and amines).
 10.6 Hazardous decomposition 	
products:	Hydrocarbons, carbondioxide and -monoxid. No hazardous decomposition products if used and stored according to specifications.
· Additional information:	Emergency procedures will vary depending on conditions. The customer should have an emergency response plane in place.

	Harmful to aquatic organisms	
	Water hazard class 1 (German Regulation) (Self-assessment): slightly haza	
	Do not allow undiluted product or large quantities of it to reach ground water	water course as a surger

SECTION 13: Disposal considerations

13.1 Waste treatment methods
 Recommendation

After diluting with a suitable desentisation agent to 10 %, the solution must be supplied to a special treatment (e. g. thermal utilization) under observance of all official regulations.

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

· Waste disposal key:

Please contact your hazardous waste disposers to assign the right EWC-(European waste catalog)number.
