The Peroxide Company

Revision: 26.06.2023

#### Printing date 29.06.2023 Version: 5 (replaces version 4) SECTION 1: Identification of the substance/mixture and of the company/undertaking 1.1 Product identifier PEROXAN ME-50 LM4 X rot · Trade name: 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available. · Application of the substance / the mixture Reaction initiator For industrial use · 1.3 Details of the supplier of the safety data sheet · Manufacturer/Supplier: PERGAN GmbH Hilfsstoffe für industrielle Prozesse Schlavenhorst 71 D-46395 Bocholt Tel: +49 2871 9902-0 Fax: +49 2871 9902-50 Further information obtainable from: Competent person: Sales Manager Germany: Mr. Ansgar Pappenheim, e-mail: a.pappenheim@pergan.com \* Export Sales Manager: Mr. Dr. Thomas Philipps, e-mail: dr.philipps@pergan.com \* Environment protection / : Mr. Christoph Wilting, e-mail: c.wilting@pergan.com Security of labour 1.4 Emergency telephone - Tel· +49 2871 9902-0 number: **SECTION 2: Hazards identification** · 2.1 Classification of the substance or mixture · Classification according to Regulation (EC) No 1272/2008 Org. Perox. D H242 Heating may cause a fire. Acute Tox. 4 H332 Harmful if inhaled. Skin Corr. 1B H314 Causes severe skin burns and eye damage.

Carc. 2 H351 Suspected of causing cancer. Repr. 2 H361d Suspected of damaging the unborn child. Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects. · 2.2 Label elements Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. · Hazard pictograms GHS02 GHS05 GHS07 GHS08 · Signal word Danger · Hazard-determining components of labelling: Reaction mass of butane-2,2-divl dihydroperoxide and di-sec-butylhexaoxidane 1-isopropyl-2,2-dimethyltrimethylene diisobutyrate tert-butyl hydroperoxide

· Hazard statements

Eye Dam. 1

Skin Sens. 1

Muta. 2

H242 Heating may cause a fire. H332 Harmful if inhaled.

H318 Causes serious eye damage.

H317 May cause an allergic skin reaction.

H341 Suspected of causing genetic defects.

4-hydroxy-4-methylpentan-2-one

	H314 Cause	es severe skin burns and eye damage.
	H317 Mayc	ause an allergic skin reaction.
	H341 Suspe	ected of causing genetic defects.
	H351 Suspe	ected of causing cancer.
	H361d Suspe	ected of damaging the unborn child.
	H412 Harmf	ul to aquatic life with long lasting effects.
Precautionary statements	P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
	P220	Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy metal compounds and amines).
	P234	Keep only in original packaging.
	P264	Wash thoroughly after handling.
	P273	Avoid release to the environment.
	P280	Wear protective gloves/protective clothing/eye protection/face protection.

• Additional information:	tert-butyl hydroperoxide 70%ig in water For the wording of the listed hazard phrases refer to section 16.	

### **SECTION 4: First aid measures**

#### · 4.1 Description of first aid measures General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

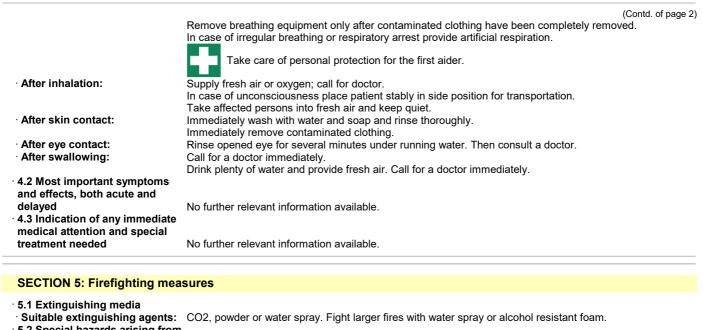

Version: 5 (replaces version 4)

The Peroxide Company

Revision: 26.06.2023

### Trade name: PEROXAN ME-50 LM4 X rot

• 5.2 Special hazards arising from the substance or mixture

Under certain fire conditions, traces of other toxic gases cannot be excluded. Hydrocarbons, carbondioxide and -monoxid. Mouth respiratory protective device.

Protective equipment:
 Additional information

5.3 Advice for firefighters

Mouth respiratory protective device. Do not inhale explosion gases or combustion gases. Cool endangered receptacles with water spray. Self-protection first!

### **SECTION 6: Accidental release measures**

<ul> <li>6.1 Personal precautions, protective equipment and</li> </ul>	
emergency procedures	Keep away from ignition sources.
	In case of further temperature should be cooled with waterspray from a safe distance.
	Wear breathing apparatus with filter A during decomposition of materials.
	Wear protective equipment. Keep unprotected persons away.
· 6.2 Environmental precautions:	Inform respective authorities in case of seepage into water course or sewage system.
	Do not allow to enter sewers/ surface or ground water.
• 6.3 Methods and material for	
containment and cleaning up:	Dispose contaminated material as waste according to section 13.
•	Ensure adequate ventilation.
	Large quantities should be diluted with suitable desensitation agent to a concentration below 10 % before disposal.
	Soak up with absorbant material (e. g. Vermiculit) and dispose of in accordance with government regulations.
· 6.4 Reference to other sections	See Section 7 for information on safe handling.
	See Section 8 for information on personal protection equipment.
	See Section 13 for disposal information.
	In case of large spillage the environmental authority should be informed.

#### **SECTION 7: Handling and storage**

· 7.1 Precautions for safe		
handling	Keep away from heat and direct sunlight.	
•	Ensure good ventilation/exhaustion at the workplace.	
	Open and handle receptacle with care.	
	Prevent formation of aerosols.	
	Wear suitable respiratory protective device when decanting larger quantities without extractor facilities.	
	Do not refill residue into storage receptacles.	
	Restrict the quantity stored at the work place.	
	Use only in well ventilated areas.	

Version: 5 (replaces version 4)

Printing date 29.06.2023

Revision: 26.06.2023

# Trade name: PEROXAN ME-50 LM4 X rot

	(Contd. of page 3) Before break and at the end of work hands should be thoroughly washed.
	Only use tools made of suitable materials (e. g. polyethylene or stainless steel). Keep away from dirt, rust, chemicals in particular concentrated acids, alkalis and accelerators (e. g. heavy metal compounds and amines).
	Avoid contact with skin and eyes.
	While using do not eat, drink or smoke.
	Avoid shock and friction.
	Do not smoke.
· Information about fire - and	
explosion protection:	Protect from heat.
	Prevent impact and friction.
	Keep respiratory protective device available.
	Fumes can combine with air to form an explosive mixture.
	Wear shoes with conductive soles.
	Avoid open flames, sparks, direct sunlight and other sources of ignition.
7.2 Conditions for safe storage,	including any incompatibilities
· Storage:	Pay attention to the special requirements of your local autorithies for storing dangerous goods.
Requirements to be met by	
storerooms and receptacles:	Store only in the original receptacle.
-	Prevent any seepage into the ground.
	Use only receptacles specifically permitted for this substance/product.
Information about storage in	
one common storage facility:	Do not store or park organic peroxide together with heavy metal compounds and amines. Store away from foodstuffs, drinks and feeding stuffs.
· Further information about	Store away from roousturis, driftes and recurring sturis.
storage conditions:	Keep container tightly sealed.
	Protect from heat and direct sunlight.
	Protect from contamination.
	Store under lock and key and out of the reach of children.
	Storage in a collecting room is required.
<ul> <li>Recommended storage temperature (To maintain</li> </ul>	
quality):	0 +30 °C
Storage class:	5.2
7.3 Specific end use(s)	No further relevant information available.

8.2 Exposure controls Appropriate engineeri	
controls	No further data; see section 7.
Individual protection	measures, such as personal protective equipment
General protective an	
hygienic measures:	The usual precautionary measures are to be adhered to when handling chemicals.
	Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing
	Wash hands before breaks and at the end of work.
	Store protective clothing separately.
	Avoid close or long term contact with the skin.
	Avoid contact with the eyes and skin.
	Do not eat, drink, smoke or sniff while working.
	Use skin protection cream for skin protection. Be sure to clean skin thoroughly after work and before breaks.
· Respiratory protectio	
	exposure use self-contained respiratory protective device.
	Use suitable respiratory device when it exceed exposure limit and when insufficiently ventilated.
	Filter A2
<ul> <li>Hand protection</li> </ul>	Only use chemical-protective gloves with CE-labelling of category III.
	Selection of the glove material on consideration of the penetration times, rates of diffusion and the
	degradation
	Protective gloves
<ul> <li>Material of gloves</li> </ul>	The selection of the suitable gloves does not only depend on the material, but also on further marks of
	quality and varies from manufacturer to manufacturer.
	Butyl rubber, BR Fluorocarbon rubber (Viton)
	Nitrile rubber, NBR
	Neoprene
· Penetration time of	glove
material	The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be
	observed.
· Eye/face protection	Tightly sealed goggles
<ul> <li>Body protection:</li> </ul>	
	Protective work clothing

### SECTION 10: Stability and reactivity

<ul> <li>10.1 Reactivity</li> <li>10.2 Chemical stability</li> <li>Thermal decomposition /</li> </ul>	No further relevant information available.
conditions to be avoided:	SADT (Self Accelerating Decomposition Temperature) is the lowest temperature at which self accelerating decomposition may occur with substance in the packaging as used in transport. A dangerous self-accelerating decomposition reaction and, under certain circumstances, explosion or fire can be cause decomposition at and above the temperature. Contact with incompatible substances can cause decomposition at or below the SADT. No decomposition if used and stored according to specifications. To avoid thermal decomposition do not overheat.
<ul> <li>10.3 Possibility of hazardous</li> </ul>	
reactions 10.4 Conditions to avoid	Self-accelerating decomposition at SADT. No further relevant information available.

(Contd. on page 8)

#### **SECTION 13: Disposal considerations**

13.1 Waste treatment methods
 Recommendation

Ŕ

After diluting with a suitable desentisation agent to 10 %, the solution must be supplied to a special treatment (e. g. thermal utilization) under observance of all official regulations.

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

· Waste disposal key:

Please contact your hazardous waste disposers to assign the right EWC-(European waste catalog)number.

Uncleaned packaging:
 Recommendation:

This material and its container must be disposed of as hazardous waste.
